TO MAKE CHANGES

IN NORMAL BOAD OF REGENTS AFTER JANUARY 1.

3 TO BE APPOINTED

Terms of W. F. Rankin and W. G. Hine Will Expire Then and J. B. O'Brien Has Resigned.

The terms of W. F. Rankin of Tarkio and W. G. Hine of Savannah, as members of the board of regents of the Normal school, will expire January 1. J. B. O'Brien, another member of the board, has resigned as he has moved away from St. Joseph to St. Louis, and is not in the district any more.

The three members are all Republicans and it is predicted that their successors will be selected from that party by Governor Major after January 1. The remaining members of the board are W. A. Blagg of this city, True D. Parr of Hamilton, Leo M. Phipps of Grant City, and State Superintendent Howard A. Gass of Jefferson City, who are all Democrats.

It is said that Mr. Rankin is not an applicant again for the position and will decline if he is chosen by Govenor Major. Many friends of Mr. Hine of Savannah, are seeking to get him re-appointed and it is thought likely that he will accept the position again. A St. Joseph man will probably be selected to succeed O'Brien. There has been some talk of appointing another Maryville man as a member of the board, giving us two. But there is opposition to this and it is probable that the man will be selected from some adjoining county in this district.

The board will probably meet within the next several days for the purpose of preparing the budget for the school for the next two years. The items of the budget will be gone over with the junketing committee of the legislature which will be in Maryville within the next few weeks to examine the school. The members of the committee are Senator Anderson Craig of this city, J. H. Somerville of Mercer county, R. R. Correlle of Randolph county. The secretary of the committee is J. P. Campbell of the Doniphan Prospect-News.

XMAS VACATION

SCHOOL BOARD DECIDED ON A WEEK AND A DAY.

LUNCH FOR MEMBERS

Of the Board and the Faculty to be Given by Domestic Science Class Next Friday Afternoon.

The public schools of this city will be dismissed only a week and a day for the Christmas holidays, so the school board decided at a meeting held last night. School will close on Thurs day, December 24, and will take up again on Monday, January 4. By having only a week vacation, the schools will close one week earlier in the spring.

The members of the school board and faculty will be entertained at a luncheon at the high school building on Friday afternoon, December 4, at 4.30 o'clock. The luncheon will be prepared by the domestic science class of the high school under the direction of Miss Dora Carpenter, the teacher of that class. Several matters will be discussed by the board and the members of the faculty.

The board suggested at their meeting last evening that the next meeting of the parents-teachers association be held in the evening instead of in the afternoon as it has been before. It is thought that an evening meeting will be better attended. Another suggestion adopted by the board was that social literary meetings be held in the high school in the evenings.

The monthly salaries of the teachers and janitors were allowed by the board

TO SHOW HISTORY

NOTABLE EVENTS AND HISTORY OF NODAWAY DEPICTED ON

WOMEN TAKE UP WORK

Local D. A. R. Chapter Studying Early Day History—Historical Decoration Planned by State Organization.

The local chapter of the Daughters of the American Revolution is hoping to have the early history of Nodaway county depicted in the mural decorations proposed for the new capitol building and with this in view is delving into records which will bring to light the most interesting events.

The plan as suggested by the artists doing the work, is to have every section of the state select its most beautiful or most characteristic scenery, its most interesting historical events and its most notable characters to be in the wall paintings and frescoes

The D. A. R. has taken charge of the work of collecting this material and the state regent has appointed a committee for this purpose. The local chapter will be glad of any suggestions or communications from anyone interested, or familiar with historic affairs of Nodaway county.

Since its organization two years ago, the Maryville chapter has been instrumental in doing many things to preserve the memory of interesting historical events in the county history. At present the chapter is engaged in studying the early Indian history endeavoring to trace the old Santa Fe trail which is thought to have passed through Nodaway county. If the trail can be traced it will place Nodaway on the route of the National Olds Trail cross continent highway.

The general observance of flag day, the placing of a flag on the court house tower, the hanging of the ten commandments in the school rooms are some of the things done during the past year by the chapter. It has a membership of forty-four.

NEIGHBORS GATHER CORN.

Members of M. W. A. Assist Sick Member to Harvest Crop.

The spirit of neighborly kindness took hold of the members of the Barnard M. W. A. one day recently and accompanied by their wives, they went to the farm of one of their number, Perry Miller, four miles southwest of Barnard and spent the day husking corn.

Mr. Miller has been seriously ill for the past four weeks and was unable to look after the harvesting of his corn crop. The work was completely furnished by the company of neighbors and other affairs about the farm which Mr. Miller could not do, were taken care of. While the men worked, the women spread a dinner which they had brought already prepared.

B. F. Dougan and Herndon & Bishop of Nodaway county had stock on the St. Joseph market Friday.

WILSON DISAPPROVES AERIAL BOMB ATTACKS

Washington, Nov. 28.—President Wilson has communicated unofficially to the diplomatic representatives of the United States in the belligerent countries of Europe his disapproval of attacks by bombs from aircraft dropped on unfortified cities occupied by noncombatants.

The president was careful not to take the matter up officially and did not even make his communication through the state department, but personally addressed the American ambassadors abroad.

The president called attention to the article in The Hague convention of 1907, to which all the principal belligerents are signatory, which provides for notice of twenty-four hours before bombardment or attacks in order that noncombatants may remove themselves from the danger zone.

American diplomats were instructed by the president, it is understood, to handle the matter with such discretion and delicacy as would tend to end aerial attacks without notice and at the same time preserve the friendship which the United States feels toward all the belligerents involved.

It is supposed that the American diplomats used their good offices consequently in a personal way with the belligerent governments, without perhaps even mentioning the fact that they were doing so at the request of the president, as such methods of obtaining a desired end are not unusual in diplomacy.

A STUBBORN ARTIST.

Mansfield Wanted a Likeness, and the Painter Gave It.

Richard Mansfield once asked Frank A. Nankivell to make a picture of him. The actor explained that he wanted an imitation of an old Roman coin with his own profile shown instead of Caesar's.

"Do you want an absolute likeness, or shall I idealize it a bit?" asked Nankivell.

"I want an absolute likeness," replied Mr. Mansfield stiffly, and the artist made a sketch of his patron.

When the completed picture—a splendid piece of work that looks as if it were embossed—was shown to Mr. Mansfield he was not pleased.

"It looks like a prizefighter," said Mr. Mansfield.

"That is not my fault," said Nankivell. "You know that you said you wanted a likeness."

There was a further exchange of courtesies, and then Mansfield suggested that the artist try again. "Excuse me," said Nankivell. "Once will do me."

"Well, change this picture a little," said the actor. "Perhaps you can fix it up."

"Not a fix," said the artist as he rolled up the picture and prepared to go with a parting shot. "You don't want an artist to draw your picture; you want a lithographer. Good day."

A GENERAL'S BAGGAGE.

It Is No Indication of the Fighting Quality of the Man.

It may be laid down as a military axiom that a general's ability is not measured by the amount of baggage he takes to war.

It is said that when General Sir John French embarked to take command of the British forces fighting with the French against the Germans in northern France all the baggage he took was contained in a single suit case.

When "Stonewall" Jackson started out on a campaign he took along no personal baggage except a withered carpetbag of ancient pattern, and even this modest receptacle was but half filled. Both these generals bear distinguished reputations as successful leaders.

Contrariwise, when Napoleon III., emperor of France, left Paris in 1870 to take command of the armies which he said, were going straight to Berlin he took along forty-eight trunks besides a most voluminous kitchen and bedroom equipage. The Germans got every scrap of it all at Sedan. His son, the prince imperial, escaped from Sedan and the beleaguering Germans with his personal effects, which filled a special train of five cars.—Washington Star.

EMBARGO ON LIVE STOCK IS LIFTED

Iowa and Other States Released From Some Restrictions.

ORDER ISSUED IN WASHINGTON

Provides Cattle For Immediate Slaughter May Be Shipped In Interstate Commerce—Cattle Can Be Received For Feeding Purposes In Territory.

Washington, Nov. 28.—An order releasing some restrictions of the federal live stock quarantine in certain counties in Wisconsin, Illinois and Iowa, which were placed under embargo because of the foot and mouth disease, was issued by the department of agriculture. It becomes effective Nov. 30.

It provides that cattle for immediate slaughter may be shipped from these counties in interstate commerce. Cattle also may be received for feeding purposes, but not shipped out for feeding elsewhere.

All the counties in Wisconsin are released with the exception of Green, Rock, Walworth, Kenosha, Racine, Dane, Jefferson, Waukesha, Milwaukee, Lincoln and Langlade.

In Iowa all counties are released except Mitchell, Green, Black Hawk, Buchanan, Delaware, Dubuque, Tama, Benton, Linn, Jones, Jackson, Poweshiek, Iowa, Johnson, Cedar, Clinton, Scott, Keokuk, Washington, Louisa and Muscatine.

The following counties in Illinois are released: Calhoun, Madison, Bond, Fayette, Effingham, Jasper, Crawford, St. Clair, Clinton, Marion, Clay, Richland, Lawrence, Monroe, Washington, Jefferson, Wayne, Edwards, Wabash, White, Jackson, Williamson, Saline, Gallatin, Union, Johnson, Pope, Hardin, Alexander, Pulaski and Massac.

The release order was the first issued since the discovery of the foot and mouth disease and will be followed as rapidly as possible by similar orders lifting the quarantine in all localities where the disease has been eradicated. Officials who have been supervising the campaign against the disease expressed satisfaction at the progress made in preventing further spread. They feel confident that the epidemic is under control and will soon be eradicted entirely.

THIRTY PERSONS INJURED

Burlington-Alton Passenger Train Derailed In Missouri.

Mexico, Mo., Nov. 28.—Thirty persons were injured, one of them probably fatally, when a Burlington-Alton passenger train, eastbound from Kansas City to St. Louis, left the rails three miles east of Clark station. Steve Preston, negro porter, probably will die of his injuries. The others, several of them seriously hurt, suffered bruises and internal injuries.

Some of the injured were rushed to nearby towns in motor cars, but the majority were brought to this city on a special train rushed to the scene from Moberly, nearby.

The train was running about forty miles an hour when it left the rails, causing the four coaches to turn partly over. The engine did not leave the tracks. The cause of the accident has not been learned.

Mr. and Mrs. W. J. Blair of Linwood, Neb., were among the five seriously injured.

CANNON ON CHURCH TOWERS

Wireless Apparatus and Guns Mounted on Cracow Steeples.

Petrograd, Nov. 28.—"The Russian commander is much embarrassed by the fact that wireless apparatus, cannon and machine guns for repulsing attacks by the Russian aeroplanes have been mounted on the steeples of the old Catholic churches, situated in the center of Cracow, Galicia," says a semi-official statement. It continues:

"To appropriate to such use historical monuments, which were not intended for any such purpose, denotes on the part of the German military authorities a desire to compel the Russians to bombard this Polish city, the fortifications of which form the last bulwarks of the Hapsburgs."

VILLA STAYS AT TULA

Part of His Forces Have Entered Mexico City.

El Paso, Tex., Nov. 28.—A part of General Francisco Villa's forces have entered Mexico City, but Villa remains at Tula. A train, the first in many weeks, left Mexico City for Juarez. This was learned when rail and wire communications were opened between the national capital and the American border town. An official Villa report said that General Cabellero, the Carranza leader, whose troops held Tampico, had recognized the convention party.

Second Man Hurt in Motor Races Dead.

Savannah, Ga., Nov. 28.—Z. D. Kelly of Savannah, one of the participants in the 300-mile motorcycle race over the grand prize race course here, died from injuries received when his machine struck a tree. This was the second fatality.

Galicia Chief Dies.

Amsterdam, Nov. 28.—Count Bobrinsky, the Russian governor general at Galicia, died at Lemberg of apoplexy.

AN ECCENTRIC RUSSIAN.

Zaharin Was a Clever Doctor, but He Had Funny Ways.

Dr. Zaharin was one of the most famous as he was also the most eccentric of physicians in Russia.

Even when he was summoned to attend Czar Alexander III in his last illness Dr. Zaharin required the same preparation for his visit to the imperial palace as to any of his less exalted patients' homes—that is to say, all dogs had to be kept out of the way, all clocks stopped and every door thrown wide open.

Following a process of gradual undressing, he left his furs in the hall, his overcoat in the next room, his rubbers in the third and, continuing, arrived at the bedside in ordinary indoor costume. This was only one phase of Dr. Zaharin's golden theory that "you should take a rest before you are tired." Accordingly he sat down after walking every few yards and every eight steps in going upstairs.

From the patient's relatives and every one else in the house he required absolute silence until he spoke to them, when his questions had to be answered by "Yes" or "No" and nothing more. To the actual patient, however, he was courtesy and consideration in the highest degree.

HENS IN WINTER.

They Stop Laying Eggs Because They Acquire Too Much Fat.

That hens stop laying as winter progresses is a fact known to every farmer and chicken fancier; also, indirectly, to every housewife through the rise in the price of eggs. The reason is explained by the Revue Scientifique, which says that the egg producing organs degenerate through too much fat. This condition is the consequence of too great abundance of food during the winter, coupled with lack of exercise, due to the narrow limits of the ordinary chicken run.

The fat invades the liver and piles up in the heart; the blood becomes sluggish and the lungs do not take up enough oxygen to insure combustion of the fat.

"The obvious remedy," says the Scientific American, "is to give less food to hens which stop laying." Mr. Brochemin, in an article in L'Acclimatation, advises that starchy foods, such as corn, rice and barley, be limited, while an abundance of such green food as cabbage, boiled clover, sorrel, etc., be given. Also the hens must be made to take exercise by giving them a large run and by mixing their food with straw, etc., so that they will have to work for their food.

Lawyers on Strike.

In 1780 John Scott, earl of Clonmell, who was lord chief justice of Ireland, made some insulting remarks from the bench to Mr. Hacket, a member of the bar, who was conducting an argument before him. A general meeting of the bar was called, a severe condemnation of his lordship's conduct voted with only one dissentient and an unprecedented resolution passed that until his lordship publicly apologized no barrister would either take a brief, appear in the king's bench or sign any pleadings for the court. This strike experiment was actually made. The judges sat, but no counsel appeared, no cause was prepared, the attorneys all vanished, and their lordships had the court all to themselves. There was no alternative, and next day Lord Clonmell published a very ample apology by advertisement in the newspapers and made it appear as if written on the evening of the offense and therefore voluntary.—London Law Times.

The Curse of Mexico.

Xochitl, the beautiful Indian maiden of 900 years ago, is responsible for the Mexican national drink, pulque, pronounced poolkay. She was the first to drink the sweet liquid from the maguey plant, cousin of the aloe, that blooms once in 100 years. The drink in its fresh state is quite harmless, but the modern Mexicans have debased it by fermentation, and it has now become the curse of Mexico. It appears to have much the same effect as some other national drinks, for it softens the brain, ruins the digestion and paralyzes the nerves. So disastrous a hold has pulque upon the poorer classes that employers of labor avoid workers from the maguey fields if they can get labor elsewhere.—Pittsburgh Chronicle Telegraph.

A Shocking Story.

"What's the show?" asked the man with a large hat and long hair.

"That'll do. I guess I'll stroll out and see a cabaret. I'm tired of these crook plays."—Washington Star.

The Better Way.

"So you have decided to forget all party grievances and forgive your enemies?"

"Yes," replied Senator Sorghum. "It is better to let bygones be bygones than take chances on being a has been."—Washington Star.

Why grin and bear all these ills when Sloan's Liniment kills pain?

"I have used your Liniment and can say it is fine. I have used it for sore throat, strained shoulder, and it acted like a charm."—*Allen Dunn, Route 1, Box 88, Pine Valley, Miss.*

"I am a painter and paperhanger by trade, consequently up and down ladders. About two years ago my left knee became lame and sore. It pained me at nights at times till I could not rest, and I was contemplating giving up my trade on account of it when I chanced to think of Sloan's Liniment. I had never tried it before, and I am glad to state that less than one 25c. bottle fixed me up apparently as good as ever."—*Charles C. Campbell, Florence, Texas.*

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

RUSS FEAR CLAIMS ARE EXAGGERATED

Officials Refuse to Confirm Reports of Big Victory.

CLAIM ADVANTAGE, HOWEVER

Berlin Declares That No Decisive Battle Has Yet Been Fought In Russian Poland—Comparative Quiet In Western War Zone.

WAR SUMMARY

The curtain is still down on the battle front in Poland between the Vistula and Warta rivers. How the battle that has been raging there for the better part of a week, between the Russians and the Germans, is progressing is unknown.

Unofficial reports adhere to their previous claims of a great victory for the Russians. Petrograd has not yet officially stamped them true. Berlin in its latest report simply says the fighting in Poland has assumed the proportions of a continuous battle. It gives no geographical position of this fighting and may refer to the operations westward from Warsaw or to those in the vicinity of Czenstochowa and still farther south along the Galician frontier. In this latter district and in Galica, according to the latest reports of the Russian commander in chief, the Muscovite forces have had numerous successes. Captures of men and munitions are recorded on the Czenstochowa-Cracow line, along the Szenriawa river in Poland; in Galicia on the Raba and Vistula rivers and before the town of Cochina which was stormed.

Berlin's latest official report announced victories in western Galicia and progress in the Carpathians for the Teuton allies.

A period of inactivity obtains along the entrenched lines in Belgium and France. Only here and there has there been any fighting and this was merely cannonading and a few light infantry combats.

Heavy fighting is in progress in northwestern Servia, but snow is hampering the operations. The Montenegrins claim to have defeated the Austrians with great losses near Vishegrad, on the Drina river.

London, Nov. 28.—While Petrograd correspondents continue to declare the Russians have won a great victory over the Germans in Poland, official confirmation of their statements still is lacking. Although Russian headquarters say the advantage in the fighting still lies with their troops, Berlin declares that no decisive battle has been fought.

Some of the German newspapers claim a success for their armies.

The silence of Grand Duke Nicholas, the Russian commander in chief in the east, as to the progress of the battle in Poland is causing some unfavorable comment in Russia.

Advices from Petrograd say there is a feeling there that perhaps the claims of the newspapers of a Russian success have been exaggerated.

In the western war zone comparative quiet prevailed. No reports of heavy fighting have been recorded here in several days, although there have been intermittent artillery duels and at various places small infantry encounters.

Snow has interfered with the fighting in Servia, where the Austrians are making a supreme effort to rid themselves of their difficulties.

Roumanian Solons Meet.

The Roumanian parliament met today and the future course of action of this kingdom will be decided. It is said that Roumania is prepared to cede to Bulgaria some of the territory which it secured after the second Balkan war at the expense of its neighbor. This may mean that Bulgaria is about to take its stand by the side of the allies and in return be permitted to straighten out its boundaries and take more of the country inhabited by its nationals.

In addition to a contingent of 21,000 men, who are already in England, it is announced that Australia has raised a second contingent of 19,000 men.

Rome Reports Serious Rioting In Jerusalem.

Rome, Nov. 28.—Natives of hostile countries resident in Jerusalem have been arrested and are being kept in concentration camps. Their houses have been looted by Turkish soldiers. The anti-Christian agitation is increasing. The Italian consul has wired the foreign office urging that Italian warships be sent.

Two soldiers have been publicly hanged in Jerusalem because they looted the Greek church and murdered the priest. The authorities are powerless to repress the rioting.

Forest Fires In Southern Missouri.

Springfield, Mo., Nov. 28.—Forest fires are raging between here and the Arkansas line in the vicinity of Thayer, Mo., according to reports received here. Passengers arriving on northbound trains said the flames appeared to be spreading rapidly. The heavy pall of smoke through which the trains ran made it necessary to close all windows, doors and ventilators.

Barmann-Schilder.

A wedding around which many social affairs have been centered since the date was announced, was solemnized this morning at nine o'clock at St. Patrick's Catholic church when Miss Laura Frances Barmann, the daughter of Mr. and Mrs. Frank Barmann became the bride of Edgar Francis Schilder, of Ft. Wayne, Ind. The words of the Marriage service were pronounced by the Rev. Father Henry F. Niemann, priest of St. Patrick's. The bride was attended by her sister, Miss Ora Barmann as maid of honor and Mr. Earl Barmann, a brother of the bride, served the groom as best man. All plans for the wedding had been very simply arranged. The bride wore her traveling gown, a coat suit of negre brown, trimmed in bands of marten fur, and with it was worn a velvet hat of corresponding shade. She carried a boquet of white chrysanthemums. Her maid of honor wore a coat suit of dark blue and carried yellow chrysanthemums. The wedding march was played by Miss Eleanor Smith and the ceremony was witnessed by the members of the family and a few close friends. Following the church ceremony a wedding breakfast was served at the Barmann home. U. S. VESSEL FIRED ON BY BRITISH CRUISER

Sends Two Shots Across Stern of Steamer St. Helena.

Panama, Nov. 28.—The American steamship St. Helena, Captain Odland, which sailed from New York city Nov. 17 for San Francisco, arrived at Colon and reported that it had been fired on by the British cruiser Berwick.

Captain Odland said that his ship was hailed, but apparently failed to heave to as quickly as was expected, with the result that the British cruiser fired two shots across the stern of the American vessel. The incident occurred at a point ninety miles northwest of Colon.

An officer from the cruiser boarded the St. Helena and examined its papers and cargo and then the vessel was permitted to proceed on its voyage after a delay of three hours.

The incident is not regarded as unusual in time of war, as merchantmen are expected to heave to immediately on demand of belligerent warships.

GERMAN SUBMARINES SINK 2 BRITISH VESSELS

London, Nov. 28.—It was reported by Lloyd's that two British steamers were sunk off Havre by German submarines.

The steamers were the Malachite and the Primo. The crews of both vessels were rescued. The men from the Malachite were landed at Southampton and those from the Primo at Fecamp, a French port on the English channel.

Lloyd's report indicates that German submarines have performed one of their most daring feats. This is the first occasion on which their activities have been reported in these waters. Apparently they made their way through the Straits of Dover to a point more than 150 miles from their nearest base.
